1. It will be good if the teachers prepare the lessons beforehand to avoid ineffective conversations with the students.
2. Better if the semester cover atleast 60% of the syllabus and is necessary to have the students to have the basic idea of what it is about, because most of us doesn't.
3. Extracurricular activities, workshops(subject based might be better), using modern technologies are unavoidable. Students and teachers must focus on them along with the texts in order to keep the institution more advanced. Usage and keeping up with the modern perspectives will make the teaching-learning more flexible.
4. Career opportunities of the degrees must be clarified properly to students. It helps their confidence ,and improves learning.
